---

D-Glucosamine Sulfate  
Potassium  
Polysorbate-60  
Cetylated Fatty Acids

To my knowledge none of the ingredients in the product MonaVie Active are on the list of banned substances for any professional or Olympic sport. Please compare these ingredients with the list of banned substances established for your sport and satisfy yourself and your training staff respecting the advisability of consuming the product as part of your regime.

Sincerely,

  
Matthew V. Parker  
Senior Vice President - Legal
